Dear Mr. Heisberg:

Enclosing money order to cover cost of your book "WHITE WASH".

Enjoyed your talk on the Jack Lee Kinney show on WCAU last night. You are to be commended for bringing all these facts to the public. I was skeptical of the Warren Report myself. Left too many unanswered questions and you enlightened me and made me feel so much better to know others thought as I did.

You are to be commended further for your composure regarding Curtis' trivial interruptions and trying to rationalize. He was doing exactly what you are trying to bring

before the public and that is
"It interesting." Trying to bury the
facts that cannot be explained.

My curiosity is aroused as to
what or who they are trying to cover
by refusing to open up another investiga
tion. I imagine we will never know
because they refuse to answer any and
all charges. Perhaps your book will
force the public or powers to be to
force another investigation.

Unfortunately there are not enough
citizens, such as yourself, to press
their demand.

Thanks again for the interesting
program and continued success in
your endeavors.

Very truly yours

Henry J Turek
